WAIVERS

Eyelash extensions are one of the best beauty services a person could have done to turn back the clocks of time. But unfortunately they are not for everyone. Because of the many allergies people may have when it comes to their eye, this service does not compliment everyone lifestyle.

Here at **Flirt & Flutter** we would like to be able to give all our clients this service without any complications but unfortunately it is not possible when you are adding product to the eyes. Like any other beauty or medical procedure one may have side effects from the eyelash extensions. Although they are minor, they do exist. We recommend if you have never had this service before to take into consideration that you may have a few minor side effects such as irritations, or itching on the edge of the eyelid area, puffiness, and redness. **Flirt & Flutter Lash Loft** reserves the right not to be held responsible for any complications with the service. ***If any of these conditions occur please contact Flirt and Flutter within 24 to 48 hours of your service***
